New York State Department of Environmental Conservation Short-eared Owl, Northern Harrier (and wintering raptor) Survey Log Winter 2016-2017

Survey Information	Weather Details	
Observer:	Wind Speed:	
Date: Time:	Wind Direction:	
Location: (town, road, road crossing)	Temperature:	
	% Cloud Cover:	
GPS Coordinates:	Snow Depth: Crust?	
UTME: UTMN:	Precipitation:	

^{*} Mark the observation point, and location of each SEOW/NOHA observed on the map provided. For each observation, note the bird's location, activity, and direction of flight or flight path on the map. Note if bird is perched, foraging, or is high in air flying towards an objective, etc. Give each SEOW/NOHA sighting a location symbol on map and below. (Letters for SEOWs and #'s for NOHAs. If individual ID number (previously captured and marked bird) is known, indicate that in the ID # column.

Location symbol	# of SEOWs/ NOHAs observed	Time	SEOW/ NOHA ID#	Activity	Notes
